

A t-SNE plot showing the relationship between tSNE1 (x-axis) and tSNE2 (y-axis). The plot is categorized by 'Detail Premature' status, with four groups: Extremely PTB (blue), Late PTB (orange), Normal (green), and Very PTB (red). The x-axis ranges from -1.5 to 2.0, and the y-axis ranges from -1.5 to 1.5. The plot shows a clear separation between the groups, with Normal (green) points clustered on the left, Late PTB (orange) points in the center, and Very PTB (red) points on the right. There are also a few outliers, including one blue point (Extremely PTB) near the center and one red point (Very PTB) at the top right.
