

A t-SNE plot showing the distribution of data points based on their 'Mother Antibiotics' status. The x-axis is labeled 'tSNE1' and ranges from -1.5 to 1.5. The y-axis is labeled 'tSNE2' and ranges from -1.5 to 1.5. A legend in the top right corner indicates that blue dots represent 'False' and orange dots represent 'True'. The 'True' points are scattered across the plot, with a notable cluster in the upper right quadrant and another in the lower right quadrant. The 'False' points form a large, dense cluster in the lower right quadrant, with a smaller cluster in the upper right quadrant.
